

HELIOTERRA

Tasting Notes

Balanced and floral with lively citrus and herbal flavors. This wine is tart, juicy and rich with refreshing flavors of grapefruit and flowers. Balanced and floral with lively citrus and herbal flavors. This wine is tart, juicy and rich with refreshing flavors of grapefruit and flowers.

Vineyard

This quiet, secluded 51-acre vineyard sits at 700' to 900' and enjoys a southwest exposure. Hudak Vineyards grows 34 acres of Pinot Noir—predominantly Pommard and Wädenswil clones—on Geneva Double Curtain and Carbonneau “Open Lyre” trellis systems, both of which, coupled with the elevation, make for optimum production and quality.

Vintage

We truly lucked out in 2020, the general quality of fruit was outstanding yielding small volumes of highly concentrated, extracted wines with superior depth and balanced acidity.

Fewer tons at crush were a common theme throughout 2020 due to May and June's weather contributing to lower grape tons- 2020 isn't a vintage to be missed!

Although most wine lovers will remember Oregon in 2020 for wildfires, and high winds- we will remember 2020 as a short vintage yielding beautiful high acid wines.

Winemaking

This Pinot Noir Rosé is macerated on the skins for three hours before getting pressed. After settling, the juice is fermented in the previous vintage's Pinot Noir barrels for a slight added weight and texture.

Technical

Varietal: Pinot Noir

PH: 3.29

Alcohol: 13.2

Cases Produced: 118
